Close the Gap

We are excited to share that our students took part in Close The Gap Day, an important event that raises awareness about health issues affecting Aboriginal and Torres Strait Islander peoples. Our students engaged in different activities and discussions to learn why it's important to improve health outcomes for Indigenous communities. This event helped them understand Indigenous culture and history better and encouraged them to be advocates for change. Together, we aim to support equality and celebrate our diverse community!

Our students had a great time at Primex! They looked at different exhibits about farming and learning, which helped them understand new ideas and practices. They also met people who work in these fields, which made their visit even more interesting. We are proud of our students for being so excited and involved during this event, and we can't wait to hear all about what they learned and experienced!
